FOOD SEC & TECH ISRAEL

The Global Food Security & Nutrition Resilience Conference

FOOD TECH, AGRI TECH, NUTRI TECH

We are honored to invite you to participate in the Food Sec & Tech IL Conference, which will focus on innovation, development, and policy to address the challenges of food security in the current era.

The conference will feature several activity zones for business development, creating an ecosystem of opportunities and technological entrepreneurship. This will include meetings between companies, startups, developers, ideas, innovations, investors, and organizations, as well as opportunities for cooperation in development and production. There will be targeted investment and budget allocations for food security.

The Food Sec & Tech Conference this year takes place amid the significant crisis facing the State of Israel, posing a real threat to the nation's food independence.

This crisis brings with it a surge of recovery and growth, with large-scale plans and projects to revive and establish the south of Israel as a hub of technological innovation, regenerative agriculture, and numerous food technology initiatives.

Join Hands for Food Security & Healthy Community

2025 FOOD SEC & TECH ISRAEL

2025 FOOD SEC & TECH ISRAEL

WHY IS IT IMPORTANT TO PARTICIPATE IN THE CONFERENCE?

Opportunity to meet, network, and get to know hundreds of participants from various fields, while supporting significant goals.

Contributing to the formulation of a national food security strategy and advancing technological and innovative solutions for food security and nutritional resilience in Israel and worldwide.

Showing support for the southern region communities, agriculture, industry, and human resources.

Assisting in the reconstruction of the south, fostering renewed development and the advancement of modern, innovative agriculture and local industry.

Connecting with Israeli innovation and technological capabilities in food security to aid other nations.

Learning about achievements, developments, and plans, seeking investors, proposing collaborations with organizations, companies, investors, and individuals, Scale-Up Meeting Point, and locating human resources.

We invite you to join the conference, support its realization, contribute to its success, and be active partners in leading Israel and the world towards national preparedness in food security. Enjoy business opportunities in public health, nutritional resilience, sustainable nutrition, climate, sustainability, and the environment.

The momentum of growth and renewal in the south Israel will drive significant development, innovation, and growth processes.

The Food Sec & Tech Summit will provide the opportunity to be a part of this promising future.
